

Technical data sheet

Dosing pump DSP 9619

This strong and durable dosing pump of the Heavy Duty series works and doses solidly, accurately and reliably.

Double ball bearing gearbox and large torque reserves are further special features of this pump.

Performance data

Flow rate: 50 ... 1000 ml/min
 Duty cycle: 50%
 Max. Pressure: 0,5 bar
 Suction height: 1,8 m

Configuration

On the device: Potentiometer

Electrical data

Operating voltage: 100...230V AC
 Frequency: 50 / 60 Hz
 Input power: 30 VA
 Protection class: IP 65

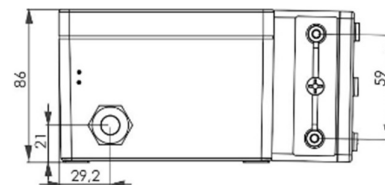

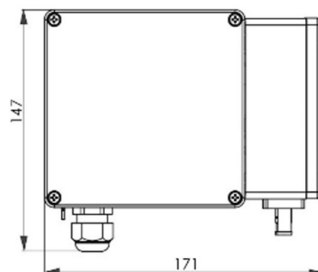

Mechanical data

Dimensions: 171 x 147 x 86 mm
 Weight: 1,65 kg
 Connection hose: 8 mm (inner diameter)

Ambient conditions

Ambient temperature range: +10 ... +45 °C
 Environmental stress: Conforms to DIN EN 60068-2-38
