

Technical data sheet

Concept 9410 dosing pump

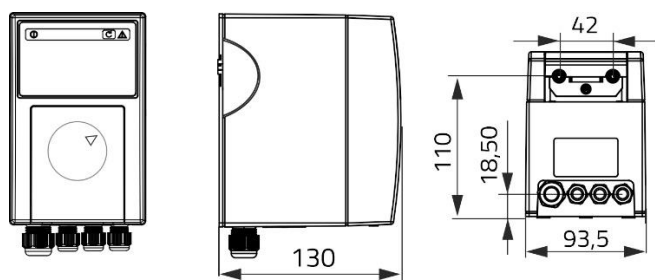

The Concept 9410 dosing pump precisely and reliably doses liquid detergent for professional cleaning systems.

The solid workmanship and high-quality components guarantee safe operation - even under demanding conditions.

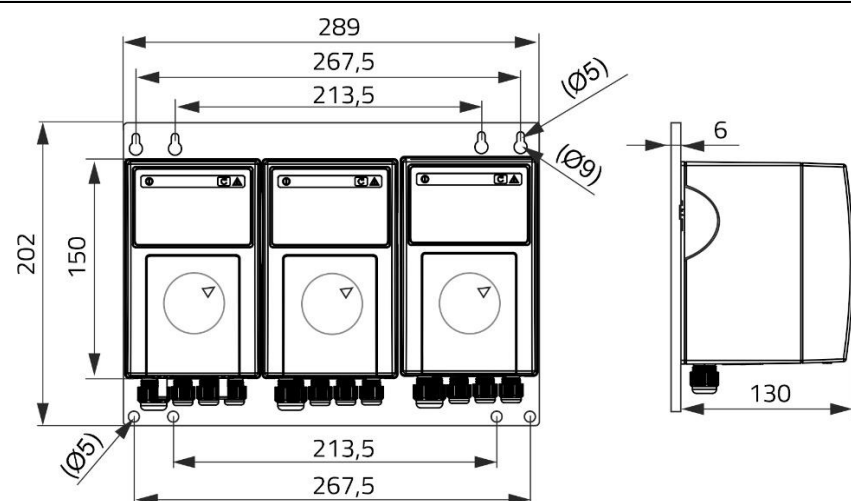

Performance data	Flow rate:	500 ml/min
	Duty cycle:	40%
	Max. Pressure:	0,5 bar
	Suction height:	1.8 m
Electrical data	Operating voltage:	230 V AC
	Frequency:	50 / 60 Hz
	Input power:	20 VA
	Protection class:	IP 65
Mechanical data	Dimensions:	93.5 x 150 x 130 mm
	Weight:	1.7 kg
	Tube connections:	8 mm internal diameter
Ambient conditions	Ambient temperature range:	+10 ... +45 °C
	Environmental stress:	Conforms to DIN EN 60068-2-38
